

Consultants Society Forum 2026: The Evolving Consultant – Human Insights on Emerging Technology

Speaker: Adam Myers, Partner Advisory, BDO Australia

Topic: From Ore to Algorithms: How AI Reshapes Mining M&A Advisory

Abstract: We will look at the M&A deal cycle, its impact, and what this transition means for those in the industry. I will run through the various workstreams in an M&A transaction, highlight where AI could be used, and discuss the impact it may have. The overall theme is that AI is a tool that enables consultants and advisers to analyse data more deeply and be better informed, but it will not remove the need for experience and judgement.
