INTRODUCTION

The AusIMM publishes various volumes throughout the year, including *The AusIMM Bulletin*, conference proceedings, technical monographs and a range called the Spectrum Series. We maintain a high standard and branding around our published content, and this reflects well on both our members and our authors. Submissions should be original, technical contributions to the resources sector.

This guide outlines the formatting policy for <u>conference proceedings submissions</u>. Further instruction is available via <u>conference@ausimm.com</u>

Depending on the conference, authors will be asked to submit a full paper, an extended abstract, a poster presentation or an abstract only.

- Abstracts must be submitted as a Microsoft Word document.
- Poster presentations must be submitted as PDFs.
- Extended abstracts and papers must be submitted as Microsoft Word documents.

Word length expectations (may vary with each conference)

Abstract	300–500 words	1 page
Extended abstract	800-1000 words	2 page detailed summary
Full paper	1500-8000 words	8–14 pages (suggested minimum)
Figures and tables	max two figures and tables per 1000 words	

SUBMISSION PROCESS

Abstract submission

- Abstracts should be submitted via the Submission Portal on the event website using the conference document template provided.
- Abstract submissions cannot be processed without a title (max 25 words), selected theme, list of authors and main author/s contact details (job position, company, phone number, email, city, state, and postcode).
- Authors must agree to the Terms and Conditions on the event website.
- Authors will be asked to provide a photo of the presenting author and a short bio with their abstract submission. The photo is not compulsory at time of submitting an abstract but will be required if the abstract is presented at the conference.
- The organising committee may, if necessary, limit the number of presentations per author.
- Once the abstract submission deadline has passed, the organising committee will review all submitted abstracts. The selection criteria include relevance to the conference theme, accuracy and originality of ideas, significance of the contribution and quality of

presentation.

Authors will then be notified in writing if the abstract has been accepted or rejected.
 Instructions will then be provided for the next stage of submission, including whether an extended abstract or full paper is required.

Draft paper or extended abstract submission

- Once an abstract has been accepted, authors are invited to write a draft paper or extended abstract.
- Draft papers or extended abstracts are submitted via the Submission Portal on the event website.
- All draft papers or extended abstracts need to be submitted using the provided conference template. If a paper/extended abstract is submitted not using this template, the author will be sent a request to resubmit, or the submission rejected.
- All draft papers or extended abstracts are then subjected to a peer review.

Finalised paper or extended abstract submission

- Following review and feedback, authors are then invited to provide a finalised paper or extended abstract.
- Finalised submissions are via the Submission Portal on the event website.
- The finalised version must address <u>all feedback</u> from the initial peer review. The author can provide further clarification for the reviewers during this process. The review committee retains the right to reject any submission.
- Finalised submissions must use the conference document template as provided.
- All presenting authors are required to register and pay to attend the conference at either the Member Author or Non-member Author rate.
- All travel, accommodation, and expenses to attend the conference are at the author's expense. The conference will not reimburse the author for any claims made to present.
- Authors who are not able to attend the conference can nominate a co-author to present on their behalf. If the author or the nomination cannot present, the paper will be withdrawn from the conference.

Extensions and late papers

- Extensions may be granted on a case-by-case basis. Extensions should be sought well in advance and should not be assumed. Please contact conference@ausimm.com for enquiries and to request an extension.
- AusIMM event management will make every effort to contact authors who have not submitted in a timely manner. However, if authors do not respond or get in touch with event management, their paper will be automatically withdrawn from the conference.

EXTENDED ABSTRACT LAYOUT

Extended abstract sequence and template

The **extended abstract template** can be downloaded from the conference website and must be used for submission. The details <u>required</u> for an extended abstract are:

- 1. A Title in sentence case (no more than 25 words).
- 2. Author details, including for each author:
 - Initial and surname (eg M S Smith¹, D A Warren²)
 - Author affiliation
 - AusIMM post-nominals
 - Position title
 - Company name
 - City, state, postcode, country
 - Email address
 - · Keywords.
- 3. An **introduction** (note that a separate abstract is not necessary).
- 4. Body **text** (2 page detailed summary, including subheadings and in-text citations for figures, tables and references).
- 5. Figures and tables (maximum of 2 figures and 2 tables, embedded throughout text with suitable captions).
- 6. Any relevant acknowledgements.
- 7. A **reference list** (this is not mandatory for extended abstracts but should be included if necessary; see Appendix 3 for formatting rules; bibliography lists will not be accepted).

PAPER LAYOUT

Full paper sequence and template

The **paper template** can be downloaded from the conference website and must be used for submission. The details required for a paper are:

- 1. A Title in sentence case (no more than 25 words).
- 2. Author details, including for each author:
 - Initial and surname (eg M S Smith¹, D A Warren²)
 - Author affiliation
 - AusIMM post-nominals
 - Position title
 - Company name
 - City, state, postcode, country
 - Email address
 - Keywords.
- 3. An abstract (300 words).

- 4. Body **text** (including subheadings and in-text citations for figures, tables and references).
- 5. Figures and tables (maximum of 2 figures and 2 tables per 1000 words, embedded throughout text with suitable captions).
- 6. Any relevant acknowledgements.
- 7. A **reference list** (this is not mandatory, but should be included if necessary; see Appendix 3 for formatting rules; bibliography lists will not be accepted).

Please DO NOT use:

- × personalised language (eg substitute 'I believe' to 'the author believes' / 'we would like to thank' to 'the authors would like to thank')
- × gendered/sexist terminology
- × extra returns between paragraphs / double spaces (even after full stops)
- × colloquial language
- × excessive exclamation marks
- × unreferenced quotes
- × unexplained abbreviations (always spell out first usage)
- × lengthy paper titles and/or subtitles (max 25 words)
- × excessive capitalisation (eg 'in the 20th century...' not 'in the 20th Century...', 'in the blast furnace...')
- \times footnotes.

Please DO use:

- ✓ present tense (exceptions would be case studies, etc)
- ✓ Australian spelling (eg capitalise, not capitalize)
- ✓ page numbers
- ✓ a maximum of two figures/tables per 1000 words is recommended
- ✓ the document template provided
- ✓ the paper details, as outlined above
- ✓ minimal punctuation (use 'eg' not 'e.g.' / use 'single' quotation marks)
- ✓ minimal capitalisation (proper nouns only if in doubt, don't use a capital).

Authors with English as a second language

We encourage international authors to make use of an English editor (eg Grammarly) prior to submission or the paper may not be accepted. If the author is using an AI tool (such as ChatGPT), the information within the paper must still be original work and must mention using such systems within the referencing.

ORIGINALITY AND TECHNICAL STYLE GUIDE

- We only accept original submissions to conferences. Submissions published elsewhere must be significantly changed or updated.
 - Any submission provided to AusIMM must be of original quality. If you wish to submit a non-original or pre-published submission you must notify AusIMM in writing prior to, or at the time of, submission.
 - Submissions can only be published by AusIMM if not previously published or are unique to the original publication. Whilst we may not be able to publish your paper, you may still be asked to give a presentation at the event.
- Submissions must have a strong technical and/or site-based component.
- We do not accept promotional or advertorial submissions of any kind.
- If required, it is the author's responsibility to allow adequate time for permissions to be sought either internally, or from outside organisations/individuals.
- Submissions are required to comply with the JORC Code, should they contain information which relates to it. This is the author's responsibility.

Measurements (see Appendix 2 for examples)

- All units of measurement should be in metric form and should be abbreviated as per: https://physics.nist.gov/cuu/Units/units.html
- Atomic and molecular weights should conform to the IUPAC Commission on Atomic Weights and Isotopic Abundances:
 http://old.iupac.org/publications/pac/2006/pdf/7811x2051.pdf
- Temperatures should conform to the International Temperature Scale of 1990 (ITS-90).
- Thermodynamic data should conform to the Committee on Data for Science and Technology (CODATA) Key Values for Thermodynamics (1989) and derivations thereof: http://www.codata.info/resources/databases/key1.html

Numbers and units

- Use numerals for all units (use a space between all units and their measurements, eg 5 km).
- Use spaces (not commas) for numbers over 10 000 (eg 10,000 to 10 000).
- All numbers at the start of a sentence must be spelled out (eg 2 becomes Two).
- Where possible express fractions as decimals (eg 2.5 or 3.75).

Trademarks, proprietary names and brand names

- Current registered trademarks, proprietary names and brand names should be capitalised.
- Registration and trademark symbols should be used with every instance of a current trademark (unless the product is mentioned excessively).

References (see Appendix 3 for examples)

- The AusIMM referencing style is based on the Harvard system for references.
- All references included must be cited in text or they will be removed from the reference list.
- Sources with multiple authors:
 When you cite a source with up to three authors, cite all authors' names. For four or more authors, list only the first name, followed by 'et al', and then the year:

# of authors	In-text citation example
1 author	(Davis, 2019)
2 authors	(Davis and Barrett, 2019)
3 authors	(Davis, Barrett and McLachlan, 2019)
4+ authors	(Davis <i>et al,</i> 2019)

- Reference citations must not be shown as footnotes.
- Do not use et al in reference lists, list all author names.
- Reference lists should be in alphabetical order via surname, un-bulleted and un-numbered.
- Reference lists should use minimal punctuation (see example below).

For each reference, the following basic convention is used:

eg: Govindan, K, Vorster, M, Martinez, J and Rakes, T, 1999. Improving mine management through data mining, in *Proceedings of the 28th International Symposium on Computer Applications in the Minerals Industries* (ed: K Dagdelen), pp 637–645 (The Society for Mining, Metallurgy, and Exploration Inc: Littleton).

Figures and tables

- No more than two tables and figures per 1000 words should be used.
- Figures and tables should be of high quality and only be included if they are essential to the paper.
- All figures and tables must be cited in text using Arabic numerals in the following style: Figure 1, Figure 2, Figure 1a, Figure 1b, etc.
- All figures and tables must be cited in chronological order.
- Figures should be placed in the text with an appropriate caption.
- Diagrams, graphs, and legends must be legible in **both** colour and black and white when a hard copy version of the proceedings will be produced (check with the event coordinator).

Examples of spelling and hyphenation of technical terms

ball mill ongoing blasthole on-site bypass open cut cost-effective ore dressing cross-cut ore shoot cross-section orebody cut-off orepass drill core outcrop drill hole overall

et al overflocculated

flocculant per cent
fly-in, fly-out pre-existing
hanging wall program

Lees, M J, 1973. Experimental and computer studies of a grinding circuit, PhD thesis (unpublished), University of Queensland, Brisbane.

Transactions

Mining Technology (A)

Applied Earth Science (B)

Mineral Processing and Extractive Metallurgy (C)

Verma, A K and Deb, D, 2007. Analysis of chock shield pressure using finite element method and face stability index, *Transactions of the Institutions of Mining and Metallurgy, Mining Technology*, 116(2):A67–A78.

Please note: between 1984 and 1990 The AuslMM Bulletin and The AuslMM Proceedings were published as one publication and it was abbreviated to Bull Proc Australas Inst Min Metall.

Pre-1984, the publications were called The AuslMM Bulletin and Proceedings Australasian Institute of Mining and Metallurgy (abbreviated to Proc Australas Inst Min Metall).

Between 1990 and 2001, both *The AusIMM Bulletin* and *The AusIMM Proceedings* were issued as separate publications.

Commencing in 2002, The AusIMM Proceedings was incorporated with The IMM Transactions and published as Transactions of the Institutions of Mining and Metallurgy incorporating The AusIMM Proceedings (abbreviated to Trans Insts Min Metall incorp The AusIMM Proc).

Final submission checklist

Submissions should be original (not previously published) and submitted electronically via the event website.

Please ensure the following:

- ✓ The submission is in the full document template and formatting styles have been applied.
- ✓ The full title is included and is less than 25 words.
- ✓ All authors' affiliations are included: position, company, city, state, postcode, country, email.
- ✓ An abstract is included (300 words).
- ✓ Australian spelling has been used (eg organise not organize).
- ✓ All acronyms are spelled out for first use, even common terms.
- ✓ All references included are <u>cited in the body of the text</u>.
- ✓ References cited in the paper use surnames and year of publication only, eg Smith (1970).
- ✓ In text reference citations only use *et al* where there are <u>four or more</u> authors.
- ✓ All figures and tables in submission are cited in numerical order (eg Figure 1).
- ✓ Figures are of suitable quality and tables are clear and logical.
- ✓ Reference list is in alphabetical order by author surname (and is not numbered or bulleted).
- ✓ Reference list is formatted according to the AusIMM referencing style (based on the Harvard system), following the examples shown in this guide.
- ✓ Organisation/individual approval (as appropriate) has been gained.
- ✓ At least one author has or will register for the event and pay the registration fee (by the given deadline).
