Brisbane, Australia
19–21 October 2026

A global hub for industry advancements

Now in its 17th iteration, AusIMM's Mill Operators Conference is an acclaimed industry event that brings together over 700 metallurgists, geometallurgists, engineers, leaders, executives, and other industry professionals to discuss advancing best practice, emerging technologies and global factors impacting mill operations.

The 2026 conference program will showcase leading best practice for existing plant operations, a focus on ESG (Environmental, Social and Governance), newly commissioned plants, and the optimisation of key unit operations such as comminution and flotation.

Technical papers will also explore emerging technologies and automation - reviewing how they create efficiencies to operations. Join change-makers from across the world in Brisbane to advance plant operations.

On the stage, a person is standing at a podium, addressing the audience. The stage floor has some text and logos, including 'AusIMM' and 'CRITICAL MINERALS'. The lighting is dim, with spotlights on the stage.
