New Leaders Summit 2026

AusIMM's New Leaders Summit (NLS) is a cornerstone event for students, new professionals and organisations across the resources sector.

Built on a long-standing legacy of supporting the next generation of mining professionals, the NLS provides unmatched opportunities to learn about the industry, gain practical insights and engage directly with respected leaders.

Renowned mining leaders share their knowledge, expertise and career experiences to inspire and guide those at the beginning of their journey. Their stories and advice help shape the understanding of what it means to build a meaningful and successful career in the resources sector.

To complement the NLS, participants also attend the APAC Mining Games. Originating in the wake of the 1972 Sunshine Mine Disaster, the Games honour those who lost their lives and reinforce the importance of safety in mining through friendly competition and tradition.

In 2026, the NLS and APAC Mining Games will be held in Brisbane from 30 September – 1 October at the Royal International Convention Centre Brisbane, bringing together 350–450 students and new professionals. Delegates will enjoy two days of learning, connection and industry engagement before heading to the APAC Mining Games at Pinjarra Hills, University of Queensland campus.

ABOUT AUSIMM

AusIMM is the peak body and trusted voice for professionals working in the resources sector.

We shape careers, showcase leadership, create communities, uphold industry standards and champion diversity.

AusIMM was named 2024 Association of the Year for its impact on the global resources sector, offering world-class professional development and fostering connections within our vibrant community from over 100 countries.

We are committed to supporting the careers of professionals working in the mining industry.

Association of the Year

New Leaders Summit theme

In 2026, the New Leaders Summit will continue with the theme 'Future Focused, Future Ready' and will build upon the pivotal work and conversations that took place in 2025.

Helping aid the next generation of resource professionals, this theme will help foster best practice, innovation, equality and ensure that the future of the resources sector can flourish and tackle the most pressing issues as the industry faces a time of rapid change and intensified reliance for a sustainable future.

These themes have been thoughtfully crafted with the NLS Advisory Committee to maximize the potential of the event and for the delegates attending.

This year's NLS will address the following themes:

- ✓ Future-Ready Leadership and Organisational Transformation
- ✓ Climate Adaptation, Resilience and Sustainable Growth
- ✓ Intelligent Mine Design and Digital Optimisation
- ✓ Global Supply Chains, Critical Minerals and Market Dynamics
- ✓ Circular Mining, Resource Recovery and Waste Reimagined

2026 Program

In 2026, the New Leaders Summit and APAC Mining Games together offer a premier platform to engage with the mining workforce of the future. The NLS delivers an immersive development experience for students and early career professionals, combining expert-led sessions, interactive workshops, and networking opportunities that build leadership capability, innovation, and operational excellence.

Running alongside this, the APAC Mining Games brings together students from across the Asia-Pacific region in a highly interactive, team-based competition that tests technical skills, problem-solving, and collaboration, complemented by dedicated careers fairs and a celebratory Awards Dinner.

Together, these programs create a high-impact, connected environment for learning, networking, and workforce development — giving sponsors the chance to showcase their brand, connect with emerging talent, and contribute to the long-term growth of the mining sector.

Who attended in 2025?

AusIMM's New Leaders Summit, held over two days in Perth in 2025, brought together the next generation of resources sector leaders and established industry professionals.

Over 60% of attendees were students, alongside operators, engineers, and emerging talent, all coming together to explore and discuss the issues that will shape the future of the resources sector.
