

Run Every Site Right:

Workforce logistics for zero high stake mistakes

Solving Real Challenges with
Intelligent Automation

August 2025

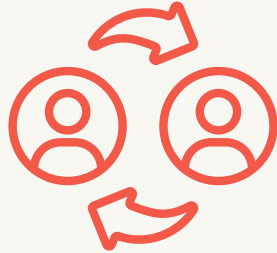

**RUN
EVERY
SITE
RIGHT**

The high stakes of FIFO workforce logistics

In FIFO, there's no room for operational blind spots.

3,000+ serious injuries/year in Australian mining

Up to 45% FIFO workforce turnover annually

Missed flights = compensation & rework

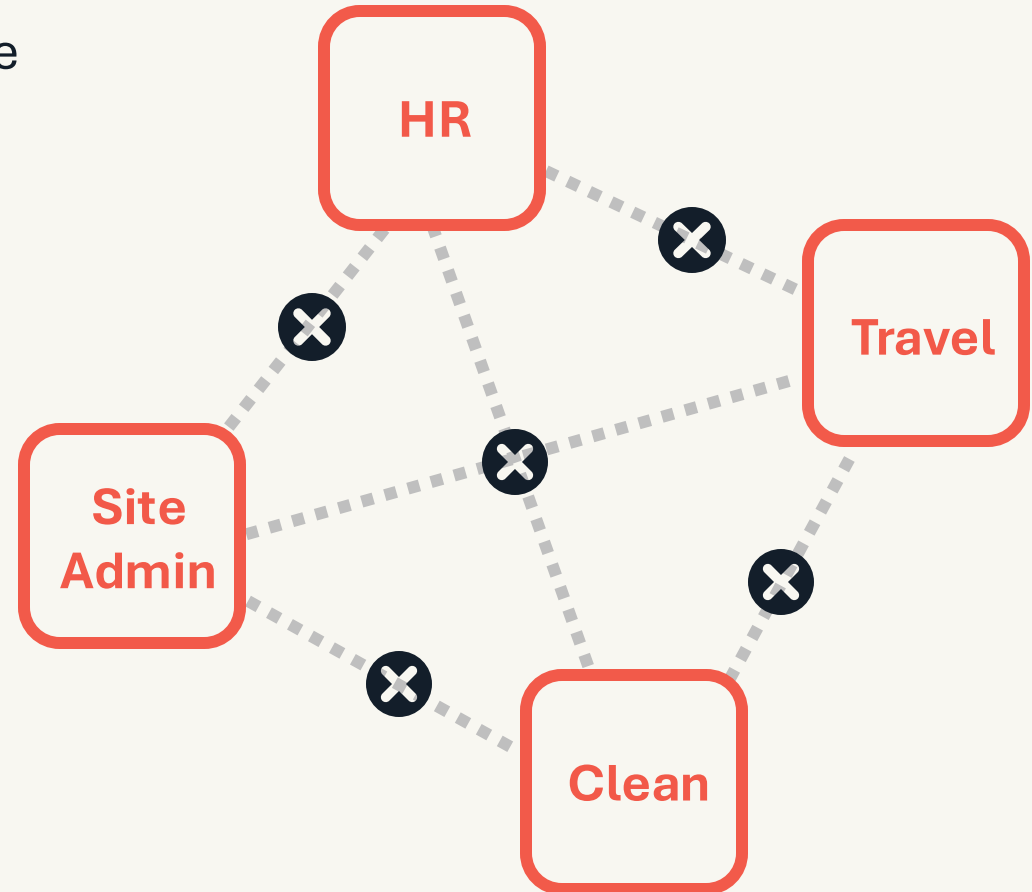

Split bookings = unhappy workers & wasted rooms

Unfit-for-work arrivals = lost production time

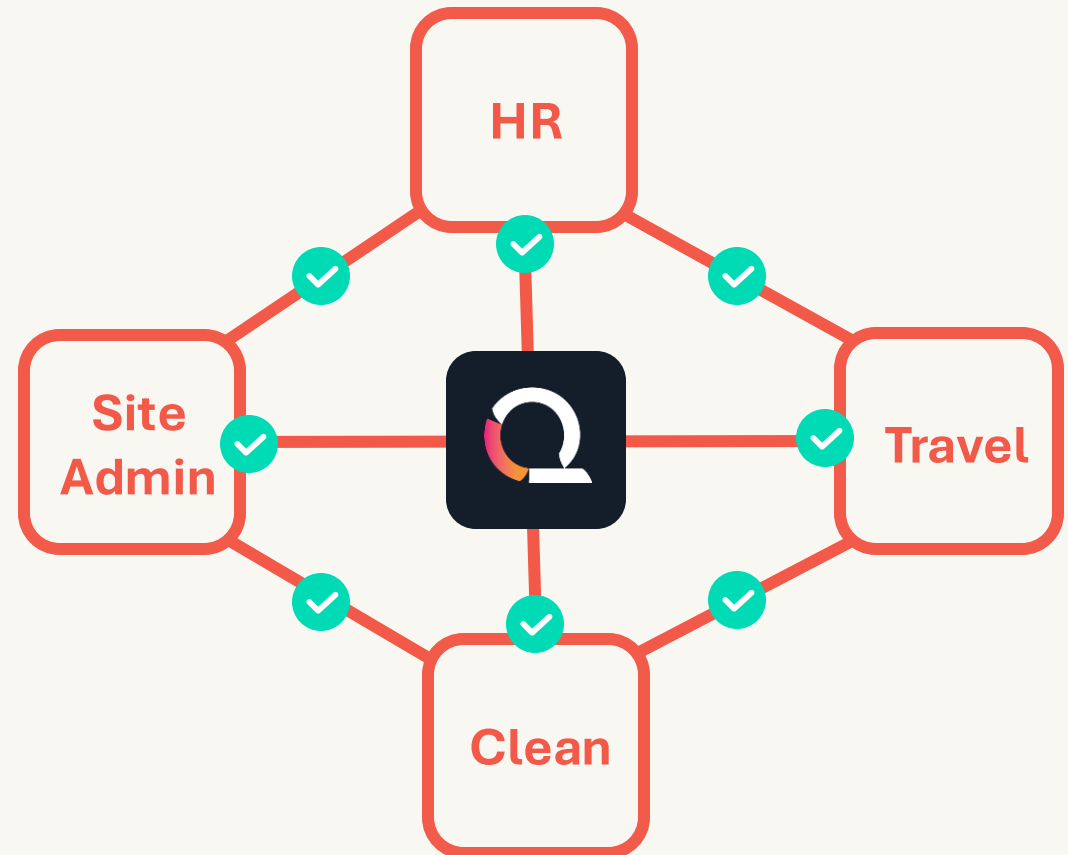

The hidden complexity behind every swing

- Hundreds of workers in motion daily
- Juggling transport, rosters, rooming, compliance
- Manual processes can't scale
- Critical decisions often reactive

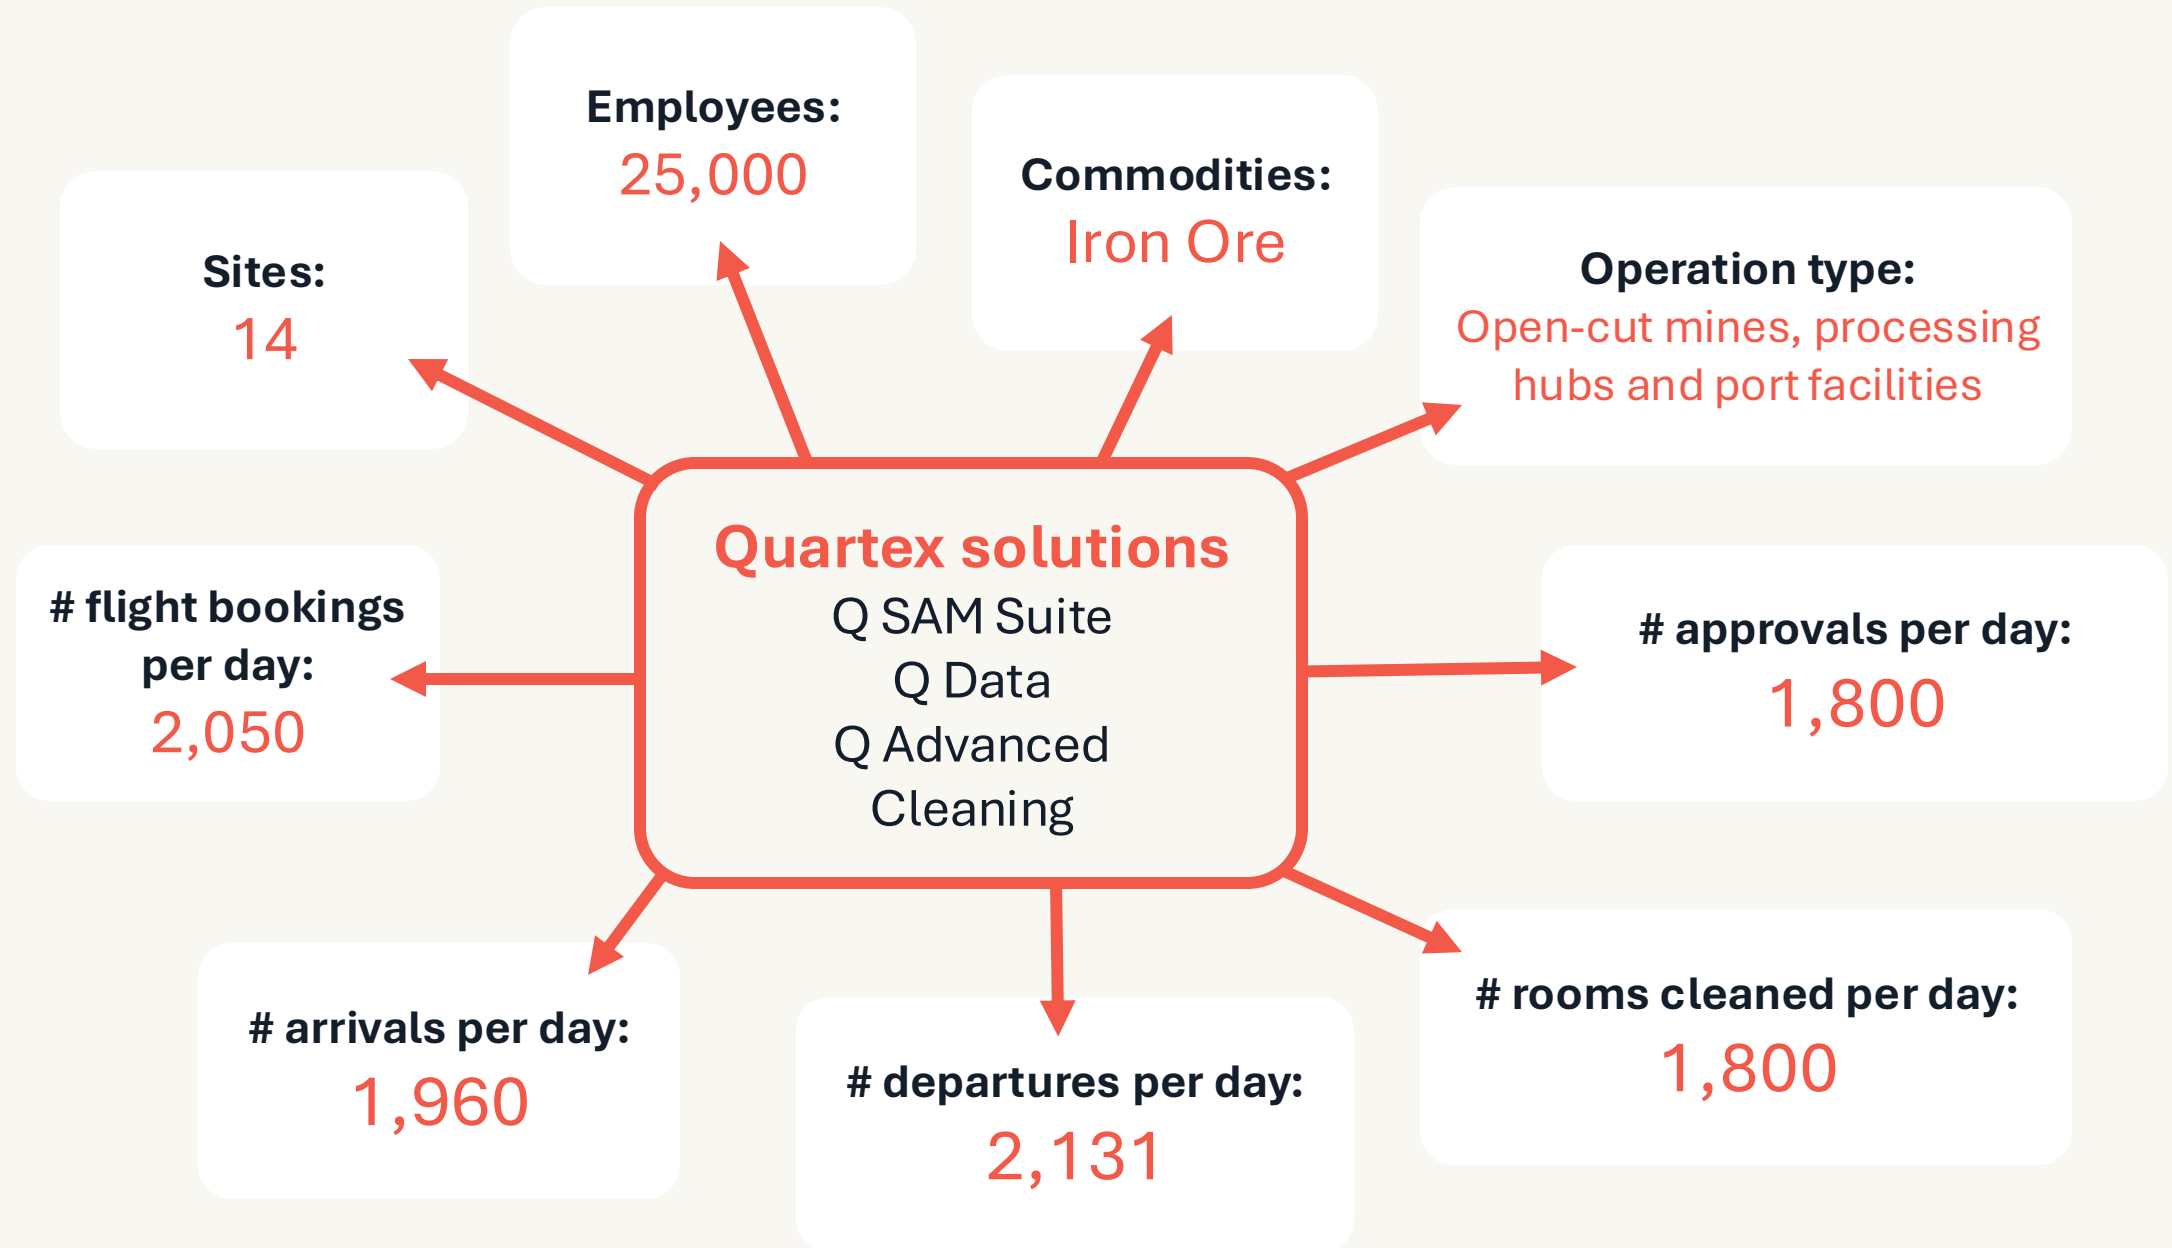

Run Every Site Right: What good looks like

- Full visibility across people, travel, rooms, and request for change
- Workers arrive fit, trained, credentialed
- Camp resources optimised, not overbuilt
- Movement synchronised across sites

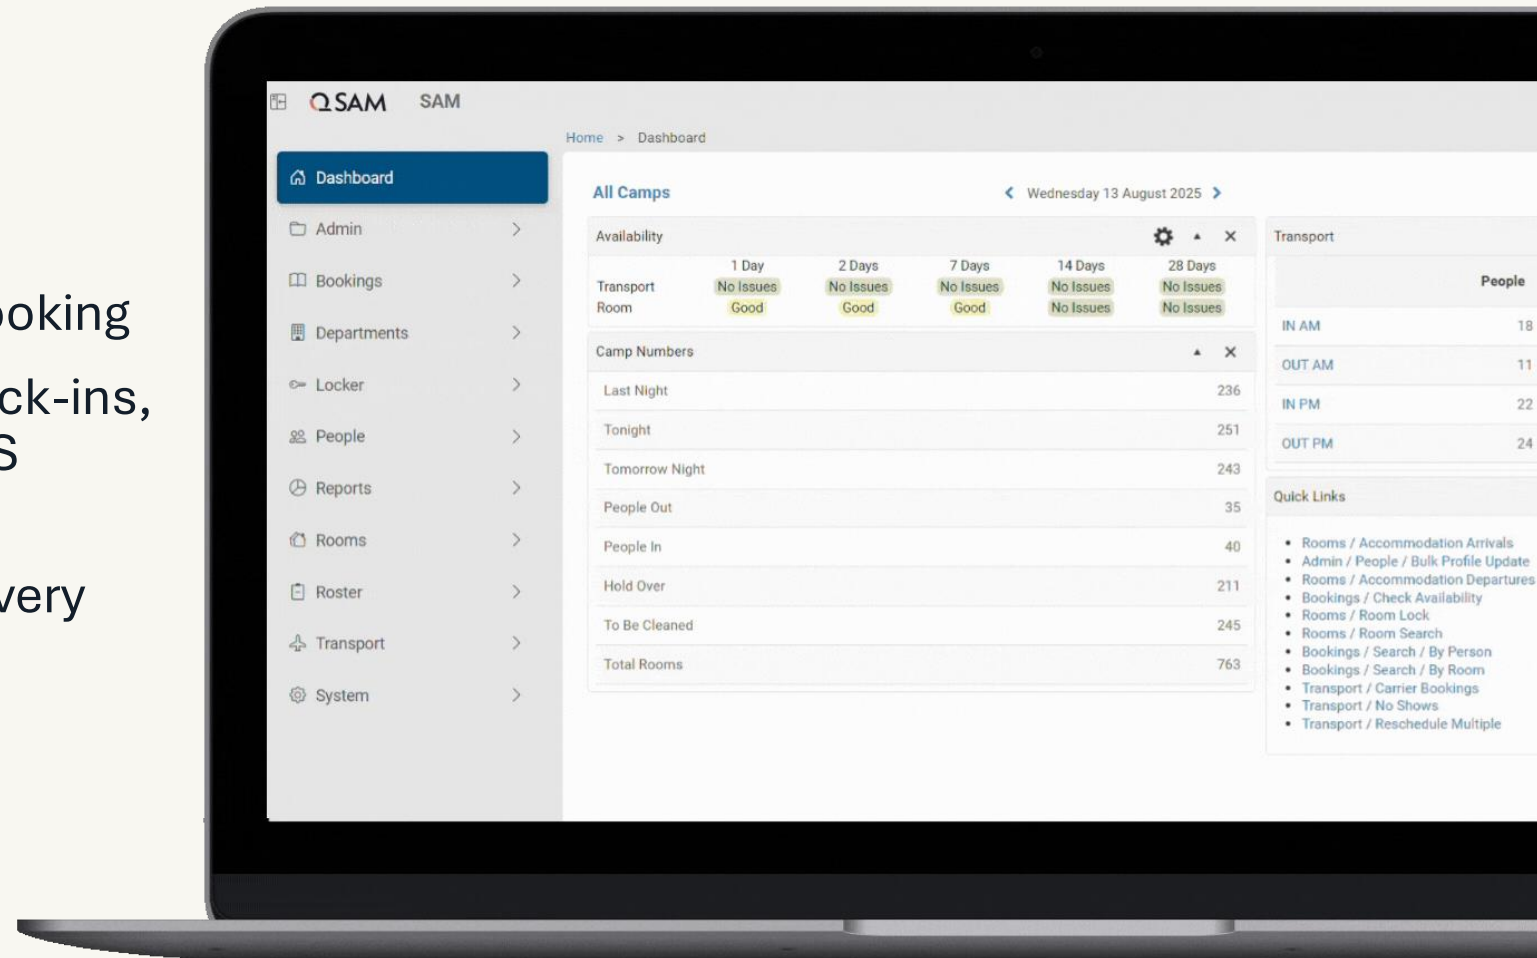

Customer snapshot

The Engine Room

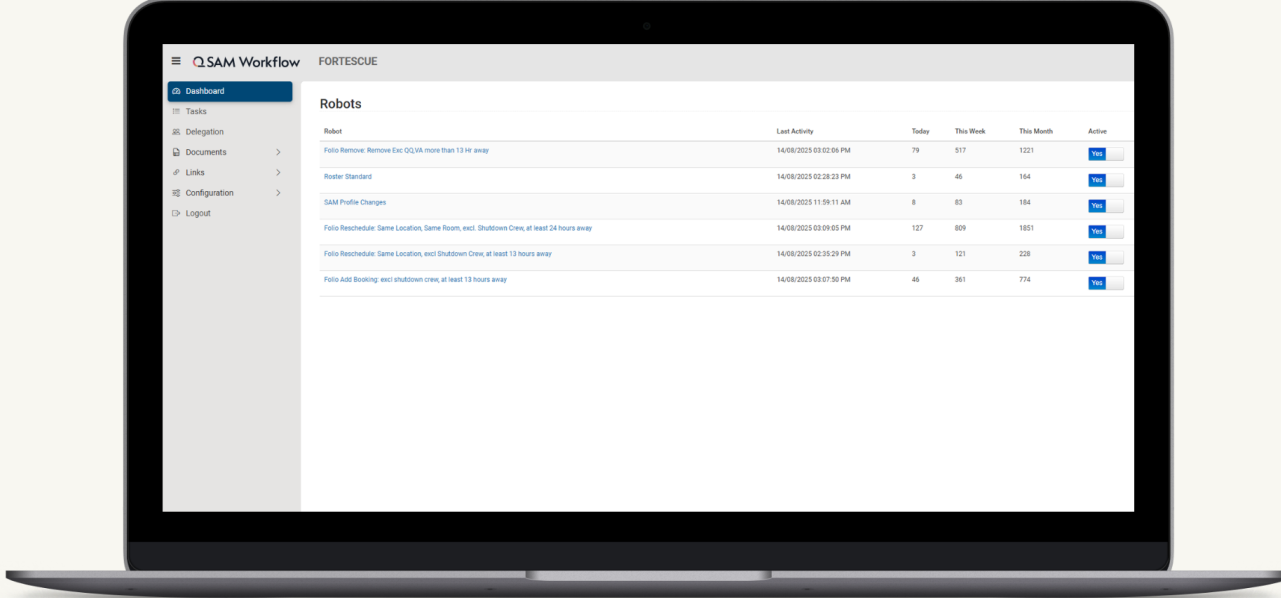

- Manages people, travel, and accommodation in one place
- Ties room allocation to transport booking
- Enables village staff to manage check-ins, room readiness, and even send SMS updates
- **Benefit:** Reduces errors, ensures every traveller has a room, improves coordination

Smart Agents

Moving Toward AI-Enabled Operations From Automation to Intelligence

- Workflow "agents" execute pre-configured rules reliably and consistently
- Agents mimic AI principles: task delegation, consistency, and autonomy
- Ideal for repeatable decisions: room allocation, travel booking adjustments, profile updates
- Reduces human workload and eliminates repetitive processing

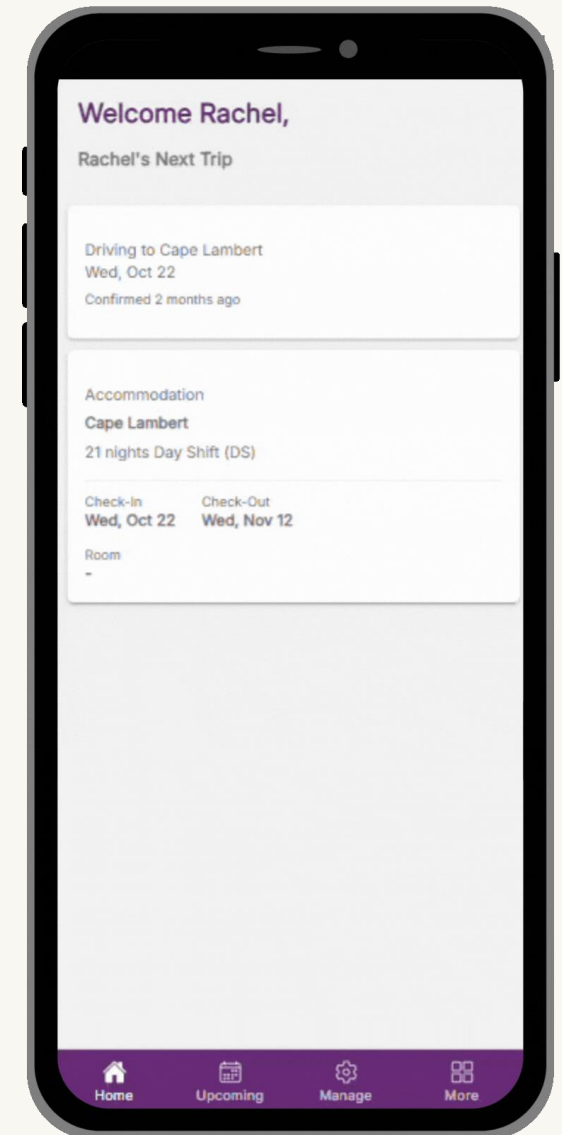

Robot	Last Activity	Today	This Week	This Month	Active
Folio Remove: Remove Exc Q/LVA more than 13 Hr away	14/08/2025 03:02:06 PM	79	517	1221	☐
Router Standard	14/08/2025 02:28:23 PM	3	46	164	☐
SAM Profile Changes	14/08/2025 11:59:11 AM	8	83	184	☐
Folio Reschedule: Same Location, Same Room, excl. Shutdown Crew, at least 24 hours away	14/08/2025 03:09:05 PM	127	809	1851	☐
Folio Reschedule: Same Location, excl Shutdown Crew, at least 13 hours away	14/08/2025 02:25:29 PM	3	121	228	☐
Folio Add Booking: excl shutdown crew, at least 13 hours away	14/08/2025 03:07:50 PM	46	361	774	☐

Up to 90% time savings on repetitive tasks

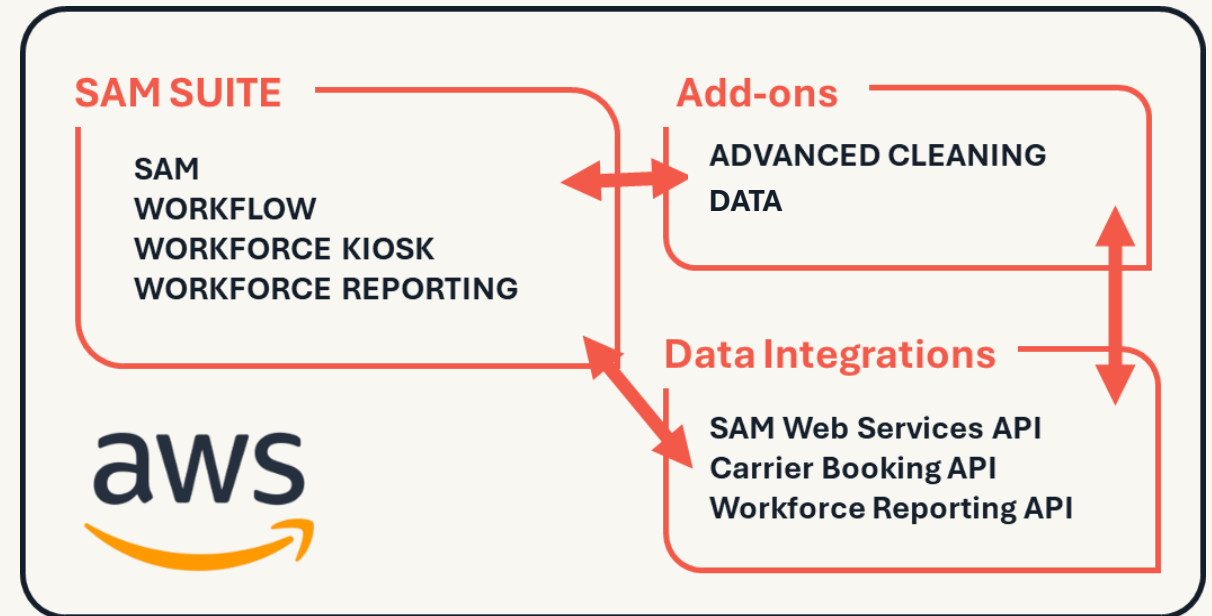

Workforce Kiosk

- Mobile app for travellers to access itineraries and share with family
- Instant access to upcoming flights, rosters, and accommodation from any device
- Automated SMS reminders mean fewer missed flights and smoother check-ins
- **Benefit:** Increases transparency and reduces admin inquiries from field workers

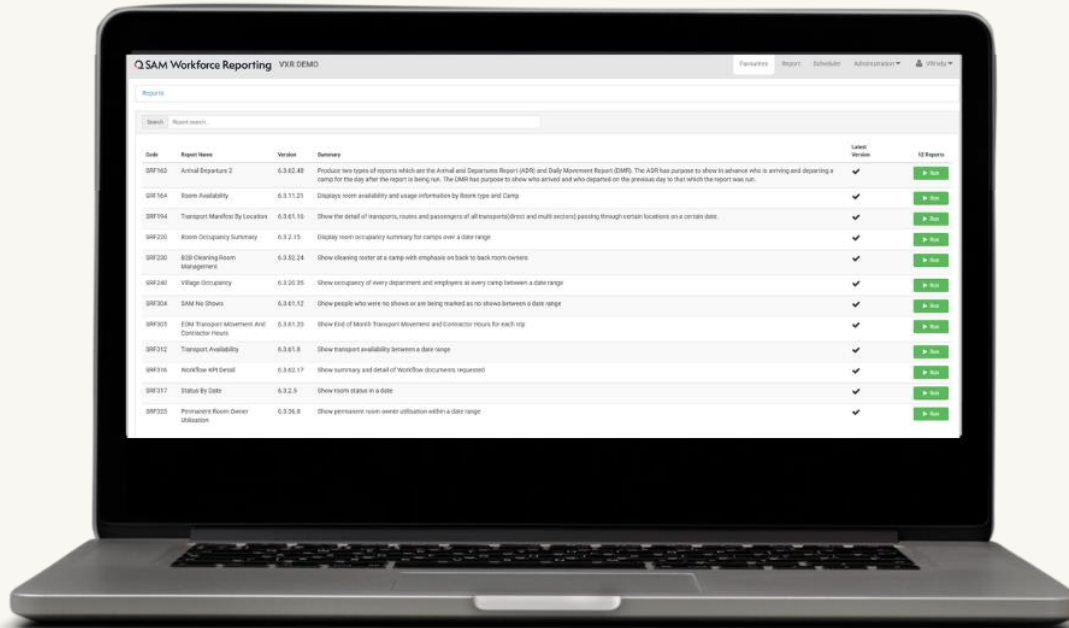

Integrations extend your workflows

- Seamlessly link with airline carriers and travel management providers
- Native integrations with Qantas, Virgin Australia, REX, Alliance Airlines, and travel agents
- Sync with HR systems like SAP to auto-create worker profiles
- Connect to our access control and cleaning systems

Workforce Reporting

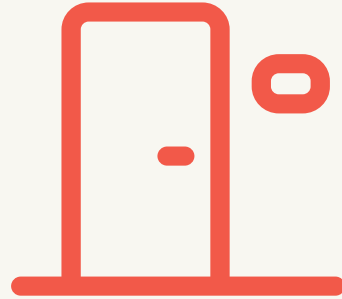

- 240+ reports for rosters, arrivals, manifests, billing, compliance
- Supports report scheduling and custom templates
- **Benefit:** Makes critical information available when and where it's needed for decision-making

ROI That Matters

**85% reduction in
request processing
time**

**Avoided six-figure
rooming costs**

**Improved
compliance through
automation**

**Better FIFO
satisfaction from
fewer split bookings**

Move people better. Run Every Site Right Smarter.

- FIFO is a logistics challenge at scale
- You don't need more admin, you need orchestration
- Our solution empowers your people and processes

About Quartex

We help large and growing companies in asset-intensive industries move and manage their people safely while protecting their licence to operate.

We are the dominant global provider of software that makes high-risk remote industry safer, streamlined and sustainable.

Thank you
