

VALMIN Code Reporting

ASSOCIATE CERTIFICATE

The VALMIN Code sets out requirements for the technical assessment and valuation of mineral assets and securities for independent expert reports and provides guidance for petroleum assets and securities.

This course will provide the fundamentals and principles of appropriate Public Reporting of technical assessment and/or valuations of mining assets in compliance with relevant laws. The course will suit professionals working on the evaluation of mining and exploration assets and who are responsible for Public Reports that will include information about the evaluation of assets or valuation of securities.

Learn practical knowledge that you can apply immediately to your work. Learning outcomes include:

- Describe a holistic view of the Code and the role it plays in the minerals industry and reporting environment
- Interpret the Code within the context of your working environment
- Explain the principles of how to approach mineral asset valuation
- Recognise how to manage risks when using the Code
