

Design and Analysis of Industrial Experiments

There are several excellent papers written by Tim Napier- Munn, as follows. For a copy of these contact either Tim at the JKMRRC or Peter.Tilyard@mmg.com

Tim also runs courses on this subject. <http://www.jktech.com.au>

A Modified Paired t-Test For The Analysis Of Plant Trials With Data Autocorrelated In Time. T.J. Napier- Munn and D.H. Meyer. *Minerals Engineering*, Vol 12, No 9, pp. 1093-1100, 1999.

Detecting Performance Improvements In Trials With Time-Varying Mineral processes – Three Case Studies. T.J. Napier- Munn. *Minerals Engineering*, Vol 8, No 8, pp. 843-858, 1995

Analysis Plant Trials By Comparing Recovery-Grade Regression Lines. T.J. Napier- Munn. *Minerals Engineering*, Vol 11, No 10, pp. 949-958, 1998
