

METPLANT 2019 CONTENTS

Keynote Presentations

The Definition of Project Success <i>D David</i>	2
Effect of Gangue Mineralogy on Flow Sheet Design and Plant Operation – Olympic Dam <i>K Ehrig, V Liebezeit, M Smith, B Pewkliang, Y Li and E Macmillan</i>	15
Metallurgical Accounting in Practice: Performance Non-Negotiables <i>A Giblett</i>	28
Lessons Learnt from Smaller Projects Applied to Big Projects – Surely it Must be Easy? <i>G Lane</i>	40
How to Formulate an Effective Ore Comminution Characterization Program <i>S Morrell</i>	51
Process Innovation and Intellectual Property: Is there really a Business Case? <i>P Munro</i>	76
Mining Silicon Valley <i>J Pease</i>	86
Interfacial Science – a Critical Enabler in Hydrometallurgy and Mineral Processing <i>J Ralston, W Skinner, J Addai-Mensah, C Priest and J McQuie</i>	96
The Stages of Digital Transformation <i>J Vagenas</i>	117

Control Methodologies and Plant Design

Water Efficiency and Environmental Sustainability Practices at Fresnillo Operations in Mexico <i>R Diaz-Colunga, S Gomez-Hernandez and R Espinosa-Gomez</i>	120
Real Time Measurement and Fast Control Strategies for the Optimal Operation of Grinding Circuits <i>R Pax and A Thornton</i>	132

Flotation and Surface Chemistry

Metallurgical Improvements at Northparkes Concentrator through the Application of High Chrome Grinding Media <i>C Greet, D Morgan, J Davis, G Small and X du Toit</i>	150
Leinster Nickel Concentrator – Flotation Circuit Upgrade <i>B Mullen, J Sykes, P Hassett and M Walshe</i>	163
Large Mechanical Flotation Cells – Advantages and Scale-Up Considerations <i>M Walshe, T Mattsson, P Bourke and R Grau</i>	176

Implementation of Technology

Making Your Thickener's Feedwell an Effective Flocculation Vessel – Lessons from the AMIRA P266 Projects <i>P Fawell, C Solnordal, T Nguyen, A Grabsch and D Stephens</i>	193
Sorting Pilbara Manganese Ores – Do Your Homework and Understand the Mineralogy <i>R Francis and D Roberts</i>	209
Fine Grinding Implementation at the Cracow Gold Processing Plant <i>A Paz, R Ghattas, S Loro and J Belke</i>	225

Optimisation of Existing Operations

Benefits Realised from Retrofitting a Gravity Gold Recovery Circuit <i>H Atakora, D Hillier, A King, M Fullam and J Carrillo</i>	239
Optimising Gold Recovery through Staged Oxygen Addition at Newmont Goldcorp Boddington <i>P Petrucci</i>	248
Improving Recovery at the Syama Gold Mine <i>M Wardell-Johnson, J Wilson and A Crooks</i>	261

Plant Design

Fast-tracking Bald Hill Lithium: Integrated Design-Construct-Operate Strategies <i>G Arvidson, C Warden, B Davies, M Piirto and B Lopez</i>	274
A Simple Recipe Guide to Gravity Concentration <i>D Bennett</i>	286
Improved Recovery through Changes in Operating Philosophies at IGO's Nova Operation <i>Z Hearne, G Gomes-Sebastiao, J Crow and N Vines</i>	300
Maximising Process Plant Engineering Efficiency through Effective Vendor Data Management <i>G Lane, D Bainbrigge, B Strong and M Pyle</i>	313
Grinding Circuit Design for the Carrapateena Concentrator <i>M Weidenbach, B Baade, J Sepplet, G Lane and D Stephenson</i>	324

Transformational Case Studies

Application of a Net Smelter Return Model within a Polymetallic Base Metal Processing Plant <i>W Downie</i>	339
Porgera Post Earthquake Learnings <i>R Palme Jnr, D Sagaliana, D Akis and B Burger</i>	355
Nyrstar Port Pirie Transformation, Commissioning and Ramp-Up <i>W Watt and N Clift</i>	375

Poster Presentations

Effect of Alkaline Type in Controlling Interfacial Chemistry, Rheology and Leaching Behaviour of Gold Concentrates <i>R K Asamoah and J Addai-Mensah</i>	377
Effect of Cyanide Concentrations on Leaching of Jarosite-Bearing Bio-oxidised Flotation Gold Concentrates <i>R K Asamoah, W Skinner and J Addai-Mensah</i>	383
High-Velocity Impact Breakage for Lower Energy Consumption by VeRo Liberator® Technique <i>G Borg, O Scharfe, A Kamradt and N Meyer</i>	389
Real Time Copper Concentration Monitoring for an Electro Winning Plant <i>C Bustamante, C Ojeda and D Hill</i>	393
Improved On-Stream XRF Analysis of Mineral Slurries <i>B Ganly and J Tickner</i>	397
Particle Size Analysis for Process Control: A New Approach with Dynamic Image Analysis <i>M Johnson, L O'Connor and L Avadiar</i>	399
The Operator Portal <i>C Knowles and J Thornton</i>	402
On-Stream Mineral Analysis for Process Control and Optimisation <i>J O'Dwyer, J Tickner, M Millen and Y Van Haarlem</i>	404
Eliminate the Re-torque and Increase Mill Availability <i>T Robinson, B Widdows and J Rosenberg</i>	407
New Reagents for Beneficiation of Lithium Ores <i>T Walsh, M McMaster, I Tolliday and P Dopico</i>	408
