

PRECONCENTRATION DIGITAL CONFERENCE 2020

CONTENTS

Keynotes

| | |
|---|----|
| A 'no tailings dam future' – preconcentration strategies 'down the sizes and across the value chain' | 5 |
| B Adair, P Revell, D King and L Keeney | |
| Sorting the future? Possibilities at Obuasi Mine | 18 |
| A Anyimadu, M Apeah Owusu, R Peattie, V Chamberlain and M Aniwu-Asumakah | |
| Evaluation and operationalization of bulk sensing technologies: insights from real world case studies | 52 |
| L Keeney, D La Rosa, P Walters, J Rutter and M Scott | |

Change imperative

| | |
|--|----|
| Challenges within the minerals industry R&D landscape in Australia | 67 |
| A Jenkin and P Revell | |
| How progressive waste rejection should transform your mining business | 72 |
| M Pyle, G Ballantyne, R Chandramohan, T Vizcarra and G Lane | |
| An integrated and balanced approach to developing pre-concentration technologies across the mining value chain | 83 |
| P A Revell and G J Wilkie | |

Delivery in the field

| | |
|--|-----|
| Automatic search strategy for ROM stockpile recovery optimisation | 96 |
| H Assimi, B Koch, C Garcia, M Wagner and F Neumann | |
| Preconcentration in the pit – size matters | 105 |
| T BoBo, D La Rosa and P Cameron | |
| The integration of mine-to-mill and grade engineering at Anglo American's Los Bronces Mine using IES | 116 |
| L Keeney, N Beaton, M Scott, D La Rosa, E Amini, J Rutter and F Faramarz | |
| A novel approach to evaluating gravity pre-concentration amenability utilising the hydrodynamics of dense liquids in inclined channels | 130 |
| C P Lowes, J Zhou, T D McGrath, J J Eksteen and K P Galvin | |
| Incorporation of ore sorting into a proposed greenfields tin mining and processing project in Morocco | 141 |
| A N Parry ¹ | |
| Preconcentration at Mt Carbine Tungsten Mine using sensor-based ore sorting | 159 |
| G Rech and R Kroukamp | |
| Operational deployment of sensor technologies for bulk ore sorting at Mogalakwena PGE Mine | 169 |
| M Scott, J Rutter, J du Plessis and D Alexander | |

Future of preconcentration

| | |
|--|-----|
| Direct gold measurement for bulk ore sorting | 183 |
| P Coghill, N G Cutmore, I Carter, M Millen and Y V Haarlem | |

Ore sorting deepdive

| | |
|--|-----|
| Preconcentration and ore processing by on-line sensors | 193 |
| I Auranen and J Raatikainen | |

| | |
|---|-----|
| LIBS mineralogy – quantitative mineralogy on the belt | 206 |
| A Blouin, D Gagnon, J El-Haddad, E Soares de Lima Filho, F Vanier, A Harhira, P Bouchard, F Boismenu, A Hamel, A Beauchesne, C Padioleau, T Vaillancourt, A Plugatyr, M Sabsabi and G J Wilkie | |
| Bulk sensing of trucks, in-pit equipment and the mine bench for preconcentration | 216 |
| P J Coghill, A Curtain, B Lovric, A McEwan, D Milinkovic, D G Miljak, G Roberts, R Stefulj and R Yong | |
| Development of an optical sorting algorithm to utilise digital images for the rapid discrimination of target minerals from gangue | 224 |
| E J Y Koh, E Amini, G J McLachlan and N Beaton | |
| Bulk sensing for effective ore sorting – learnings over 35 years | 238 |
| H Kurth and L Balzan | |
| Evaluating the opportunities of XRT sorting technology using micro computed tomography and QEMScan | 248 |
| P Luo, J E Danoczi and P Nakutnyy | |
| Understanding ore heterogeneity and effective bulk ore sorting using PGNAA/PFTNA..... | 260 |
| G Noble and S Ferguson | |
| Potential and limitations for sensor-based particle sorting of gold ores – experiences on sensor-based particle sorting piloted for SAG pebbles | 266 |
| C Robben and A Kobzev | |
| Quantification of surface sensor representivity of primary crushed ore for bulk ore sorting | 275 |
| J Rutter, M Scott, N Odjar, M Federov and D Francois-Bongarcon | |
| Sensor-based particle sorting: technical and economic evaluation of the applicability in a zinc ore mine..... | 287 |
| V Souto, J L Bechir, P Esteves, R Galery and C Senna | |
| A novel fluorescence sensor for the detection of fluorine bearing minerals in base metal ores | 303 |
| N A Spooner, G Tsiminis, J E Moffatt, T B Payten, L d S Teixeira, E Klantsataya, T J de Prinse, B W Smith and D J Ottaway | |
| Payoffs – environment and economics | |
| Downstream impacts of Grade Engineering® and preconcentration | 310 |
| S Dekhoda, J Salaya, J Kwak and L Keeney | |
| Quantifying economic and environmental impacts of preconcentration..... | 320 |
| M Scott and E Amini | |
| Preconcentration techniques | |
| Pre-concentration via waste rejection based on fragment size – Olympic Dam case study | 336 |
| K Ehrig, V Liebezeit, E Macmillan, Y Li, B Pewkliang and M Smith | |
| Conducting comprehensive evaluations of preconcentration options | 345 |
| W Valery, K Duffy, P Holtham, E Tabosa and B Andrade | |
| Understanding and modelling orebodies | |
| Development of mine operation value chain flowsheets fine-tuned and constraint based on the process information (PI) data to evaluate proposed operation strategies and ore pre-treatment technologies..... | 357 |
| E Amini and N Beaton | |

| | |
|---|-----|
| Assessing the value of bulk ore sorting with drill core data..... | 377 |
| G Ballantyne, M Pyle, B Foggiatto and T Vizcarra | |
| Grade engineering at Gramalote gold deposit, Colombia: an example of industry – research collaboration, Part 1..... | 383 |
| N Clarke, A Barros, J Hunt and L Keeney | |
| Unlock potential opportunities through unexplored aspects of Grade Engineering®..... | 397 |
| F Faramarzi, P Walters, P Revell, G Wilkie and L Keeney | |
| Grade engineering at Gramalote gold deposit, Colombia: an example of industry – research collaboration, Part 2..... | 409 |
| N Guerrero, J Hunt, N Clarke, A Barros and L Keeney | |
| Developing an evaluation method for bulk ore sorting | 416 |
| R J McCarthy, S Dykes and B Klein | |
| Using high-efficiency downhole assay to improve the financial performance of open pit copper mining operations | 425 |
| H Rossiter, A Virani, J Market, A Maddever and P Jeanneau | |
| Heterogeneity and bulk ore sorting – methods to estimate ore sorting performance | 444 |
| J Rutter and S Dunham | |
| A new cut-off grade method to maximise resource utilisation of underground metalliferous mining operations | 453 |
| F Sotoudeh, M Nehring, M Kizil, P Knights and A Mousavi | |
| Upstream impact of preconcentration on mining | |
| Improved mining recovery with bulk ore sorting and MR technology..... | 462 |
| C Beal and S Singh | |
| Application of sensor-based-sorting technology at pilot plants in South America..... | 472 |
| P Esteves, V Souto, E Dias, C Senna and T Soares | |
| Mine productivity and equipment selection impacts with operational grade engineering | 482 |
| A F von Wielligh, L Keeney and M Scott | |
